

McMaster University

Summer Programs 2024

“ I truly appreciated the professors’ lectures from various fields and their kind encouragement. I am thankful for this opportunity to challenge myself and to get to know more peers from different schools. I felt greatly impacted by their knowledge, research experience and ways of thinking. The program also showed me new customs and culture and grew my interest in medical systems. I will always remember this precious experience at McMaster campus. ”

-Zitang Zhou
Shanghai Jiao Tong University School of Medicine

Founded in 1887, our purpose at McMaster is the discovery, communication and preservation of knowledge. In our teaching, research and scholarship, we are committed to creativity, innovation and excellence.

- One of only four Canadian universities **ranked among top 100** in the world.
 - Ranked 85th in the Times Higher Education World University Rankings 2023.
 - Ranked 98th in the Shanghai Jiao Tong Ranking of World Universities.
- No. 4 on the Maclean’s annual rankings of Canadian universities.
- Consistently ranked as Canada’s most research-intensive, medical-doctoral university by Research Infosource since 2017.
- Home of **three Nobel prize winners**: McMaster Professor Bertram Brockhouse (*Physics in 1994*), McMaster graduates Myron Scholes (*Economics 1997*), Donna Strickland (*Physics 2018*).
- Top rated programs in: Business, **Engineering, Health Sciences, Humanities, Science, and Social Sciences**.

Micheal G. DeGroote School of Medicine is known around the world for its innovative method of small group, problem-based education, with a focus on self-directed, lifelong learning, which is pivotal from the day students enter our schools and throughout their professional careers.

Summer English Program with eHealth Focus

This program is designed to provide participants with strong foundation approaches to eHealth. The introduction to eHealth will include discussion of Health Research Methods, Health Policy, Health Economics, Public & Population Health, Health Informatics, Health Technology Assessment and Health Data Mining. Our in-person program begins with 2 weeks of intensive practice of English language skills for the health science context which prepares students to participate effectively in their eHealth lectures and activities.

Program Features:

- Lectures by expert faculty from McMaster School of Business, Faculties of Health Sciences and Engineering
- Highly qualified and experienced English language instructor
- Progress Report and Certificate of Graduation
- Access to university facilities and services
- Visit to hospital, historical/recreational places
- Welcome and farewell ceremonies

Program Dates: July 14 - August 11, 2024

Program Fees: \$5,400 CAD

Fees include: tuition, accommodation, limited meal cards, airport pick-up and drop-off, access to university facilities and university health insurance.
